EVERYTHING YOUR HARLEY NEEDS, INCLUDING BETTER PROTECTION

AMSOIL V-Twin Oil Change Kits include everything needed to perform an AMSOIL oil change in one convenient package.

Check out the Motorcycle Product Guide at AMSOIL.com/
AMSOIL.ca to find the right kit for your Harley-Davidson.*

AMSOIL V-Twin Oil Change Kits include...

- 4-5 quarts of AMSOIL 20W-50 Synthetic V-Twin Motorcycle Oil (MCV)
- 1 chrome or black AMSOIL Motorcycle Oil Filter (EAOM103/EAOM103C)
- 1 drain-plug O-ring

TABLE OF CONTENTS - PRODUCTS

Gasoline Motor Oil	14
European Motor Oil	18
Classic/Collector Car Motor Oil	20
Racing Oil	22
Diesel Oil	24
Transmission Fluid	26
Gear Lube	28
Fuel Additives	30

THE COVER

Motorcycle season is finally here, and AMSOIL products provide the ultimate protection and performance no matter what you ride.

*All trademarked names and images are the property of their respective owners and may be registered marks in some countries. No affiliation or endorsement claim, express or implied, is made by their use.

AMSOIL Has Your Motorcycle Covered

Motorcyclists are gearing up for another summer of rallies, road trips and dirt riding. Whether you're into V-twins, metric or dirt bikes, prepare for a long riding season with fresh oil that is dialed-in to meet the specific needs of your motorcycle.

V-Twin Motorcycles

Powerful, hot-running V-twins generate intense heat, especially in slow-moving rally or parade traffic. Air-cooled bikes rely on a steady flow of air over the cooling fins to keep the engine cool. Stop-and-go riding and extended idling on hot summer days can quickly cause the engine temperature to skyrocket. If the motor oil cannot withstand the intense heat and powerful mechanical action inside a V-twin engine, it loses viscosity and its ability to provide adequate engine protection.

Bikes that use the same oil for both the engine and transmission are especially prone to viscosity loss. AMSOIL Synthetic V-Twin Motorcycle Oil is shear stable and does not thin from mechanical activity, so it's excellent at protecting your V-twin engine against wear.

AMSOIL Synthetic V-Twin Motorcycle Oil delivers excellent performance in the engine, transmission and primary chaincase, offering the convenience of a single oil for all three parts of your bike. It is available in 20W-40, 20W-50, 15W-60 and SAE 60 viscosities as part of our complete V-twin product line, including complete oil-change kits with filter. For bikers who prefer to use oils formulated specifically for the transmission or chaincase, AMSOIL Synthetic V-Twin Transmission Fluid and Synthetic V-Twin Primary Fluid are engineered to the same exacting standards.

Metric Motorcycles

The metric motorcycle market includes standard (naked), cruiser, touring and sport bikes

High-performance sport bikes need wet-clutch-compatible lubricants that deliver efficient and consistent shift performance. The high speeds and rpm associated with these bikes can cause inferior oils to foam, decreasing their ability to protect the engine.

Like sport bikes, standard and cruiser motorcycles are also defined by engine power and responsiveness, so smooth shifting and reliability are important traits. Touring bikes aim to provide comfort, luxury and the adventure associated with long, cross-country trips, which also benefit from extended drain intervals.

Our advanced synthetic technology maximizes engine responsiveness and delivers excellent wet-clutch compatibility, enabling smooth shifts for a more comfortable ride. By controlling foam, AMSOIL Synthetic Metric Motorcycle Oil helps you confidently push your bike to its redline for maximum speed, acceleration and cornering ability. Its outstanding resistance to extreme heat provides peace of mind, knowing your bike will provide trouble-free operation mile after mile.

AMSOIL Synthetic Metric Motorcycle Oil enhances performance and reliability and delivers superior protection against engine wear in high-performance engines. It is available in 10W-30, 10W-40 and 15W-50 viscosities as part of our complete metric-motorcycle product line, including oil filters and AMSOIL Powersports Antifreeze & Coolant. It also extends drain intervals up to twice the bike manufacturer's recommendations, allowing riders to confidently wander far from home.

Dirt Bikes

Unsurprisingly, dirt-bike operating conditions are similar to ATVs and UTVs. While you'd never plow snow with your motorcycle, it still undergoes ample low-speed stress punctuated with periods of high revving. When racing, there's frequent repetition between wide-open throttle on the straights and rapid acceleration through the corners. Throttling through jumps causes the rear tire to spin freely in the air, then create a heavy load on the engine when it contacts the ground. And trail riding requires lots of clutch and throttle manipulation to maneuver over and around obstacles.

Dirt-bike engines are typically lightweight designs meant for performance. Any time you remove mass and increase power,

No matter what you ride, AMSOIL offers premium synthetic lubricants designed to specifically address the very specific and challenging demands of powerful and high-revving engines.

you increase engine stress. The combination of high rpm and lighter materials creates the perfect scenario for engine failure if the motor oil fails to do its job.

Additionally, dirt-bike pistons tend to have shorter piston skirts to reduce friction, which doesn't help engine longevity. A shorter piston wants to rock inside the cylinder, which concentrates tremendous force on the tiny area where the piston skirt and cylinder wall contact. Only a microscopic oil film provides protection in this area, and superior oil film strength is essential to help the engine survive.

Making matters worse, dirt bikes barely hold any oil, often only about one quart. That single quart of oil must fight wear, resist heat and prevent deposits, which is why most dirt-bike riders change motor oil frequently. In heavy use, the top-end may need to be rebuilt as often as every 15 hours.

AMSOIL Synthetic Dirt Bike Oil enhances engine performance and reliability, delivers superior protection against engine wear and is far less expensive and less hassle than rebuilding your top-end. AMSOIL DOMINATOR® Synthetic 2-Stroke Racing Oil will handle all your two-stroke needs, while AMSOIL Synthetic Dirt Bike Oil for four-stroke dirt bikes is available in 10W-40, 15W-50 and 10W-60 viscosities as part of our complete dirt-bike product line, including oil filters and AMSOIL Synthetic Dirt Bike Transmission Fluid.

No matter what you ride, AMSOIL offers premium synthetic lubricants designed to specifically address the very specific and challenging demands of powerful and high-revving engines.

SELL THE AMSOIL PRODUCTS YOU TRUST

By becoming an independent AMSOIL Dealer, you get to sell something everybody needs and the plan is simple: **the more you sell, the more you earn.** With no inventory requirements or sales minimums, you can either sell on the side for extra income or build your Dealership into something more.

Alex Thompson | MARKET MANAGER – AUTOMOTIVE B2C

European vehicles require specialized lubricants.

Consult the recommended oil specification in the vehicle owner's manual.

The European vehicle market share has grown steadily since the turn of the century. The sensitive emissions-control devices featured in most modern European vehicles require unique oil properties to ensure proper operation. Combined with longer recommended drain intervals, European vehicles require strict lubrication specifications with more advanced motor oil technology that is almost exclusively synthetic based.

What is SAPS?

SAPS is an acronym for Sulfated Ash, Phosphorus and Sulfur, which comprise a portion of a motor oil's additive content that provides desirable performance and emissions properties, including detergency and protection against wear and oxidation. Different engines require different SAPS content; it is not one-size-fits-all.

Sulfated ash is the result of oil additives burning and creating ash. These additives assist with total base number (TBN), antioxidancy, anti-wear, cleanliness and soot handling. Phosphorus provides anti-wear properties and further antioxidancy, while sulfur contributes antioxidancy, anti-wear properties and engine cleanliness.

Manufacturers Specify SAPS

The European Automobile Manufacturers' Association (ACEA) establishes lubricant standards for Europe, similar to the American Petroleum Institute (API) in the U.S. ACEA recognizes that European engines differ from U.S. engines in both design and operating conditions. European vehicle manufacturers often maintain their own additional motor oil performance specifications.

Specifications

The extremely sensitive systems on modern European vehicles require special lubricants. SAPS content helps differentiate between oils within the AMSOIL Synthetic European Motor Oil family, but because most consumers aren't familiar with SAPS or its significance for European vehicles, AMSOIL labeling focuses on specifications. The most important criteria to ensure you choose the right oil for your vehicle is matching the specifications called for in the owner's manual.

Importance of Formulation

Many European vehicles available in North America feature gasoline, diesel or hybrid engines with emissions systems that are sensitive to SAPS content, and turbochargers that greatly increase heat, resulting in oil oxidation.

AMSOIL Synthetic European Motor Oil (E2T, AFE, EFO, AEL, AFL, EFM) uses shear-stable synthetic base oils and high-quality anti-wear additives to provide outstanding protection in extreme-temperature conditions. Its thermally stable oil formulation resists deposit formation and cools turbochargers, providing dependable performance for the extended drain intervals recommended by European manufacturers. Excellent detergency properties help keep engines clean by preventing sludge and varnish deposits and reducing oil consumption, which improves performance and extends engine life.

The AMSOIL Synthetic European Motor Oil product line features full-SAPS, mid-SAPS and low-SAPS (FS, MS, LS) options to meet the

needs of highly specialized European engines. They are engineered to meet European manufacturers' specifications, providing excellent all-season performance, maximum fuel economy, enhanced turbocharger protection and superior engine cleanliness.

Check Owner's Manual

Given the beneficial properties SAPS additives impart, it's easy to assume a higher concentration equals a better oil, but higher SAPS levels can be detrimental to expensive exhaust devices, such as diesel particulate filters (DPFs) and catalytic converters.

The three different SAPS levels of European motor oils can make matters more confusing, especially considering the same viscosity motor oil may be available in low-, mid- and full-SAPS variants. Technicians and motorists may not know or understand which is the correct choice.

Vehicle manufacturers recommend oil specifications in the vehicle owner's manual, so be sure to check there first. The Product Guides at AMSOIL.com are also a quick and easy way to determine the right AMSOIL products for specific vehicles.

New AMSOIL 0W-50 Synthetic ATV/UTV Motor Oil Viscosity Delivers **Upgraded Performance and Protection**

New AMSOIL 0W-50 Synthetic ATV/UTV Motor Oil provides expanded protection for hard-working and performance Polaris* ATVs and UTVs.

Protection in Extreme Conditions

ATVs and UTVs are used to tackle demanding tasks and tough terrain, like pulling trailers, hauling gravel, herding livestock, plowing snow and powering through mud, rocks and more. Challenging work and aggressive riding place a lot of stress on the engine. UTVs and ATVs are also commonly modified with accessories designed to increase power and productivity, like roof and door panels, plows, winches, skid plates and other accessories. These upgrades help you do more with your machine, but they also add weight and increase the severity of operation. Added weight equals added heat, and heat causes standard-service lubricants to break down sooner.

AMSOIL Synthetic ATV/UTV Motor Oil is engineered to withstand these severe operating conditions by delivering reserve protection against heat. It is highly resistant to thinning due to extreme heat and mechanical shear for superior protection in extremely hot conditions.

The advanced synthetic technology resists oxidation and protects against extreme heat to help prevent sludge and varnish. It provides reliable wear protection and aids in cooling shrouded engines, so you can remain confident that your machine is protected when tackling tough jobs around your property or riding aggressively on the trail.

With a wider temperature range, AMSOIL 0W-50 Synthetic ATV/UTV Motor Oil (AUV05) delivers the ultimate performance in the most extreme temperatures. It remains fluid in sub-zero temperatures down to -45°F (-43°C) to provide excellent cold-start protection, which also means it's excellent for use in four-stroke snowmobiles.

Why Another Viscosity?

Like the rest of the AMSOIL ATV/UTV lineup, the new stay-in-grade 0W-50 viscosity is developed specifically for chores like hauling and plowing, as well as racing through tough terrain like rocks, mud and snow. More specifically, 0W-50 Synthetic ATV/UTV Motor Oil provides superior cold-

flow ability for quick starts in extreme cold temperatures, where the highest risk of engine damage occurs. The severe-service formulation lets riders confidently and safely push their Polaris ATVs, UTVs and four-stroke Prostar* S4 snowmobiles to the absolute limit.

- **Protection** when performing demanding chores and tackling tough terrain
- **Fights** wear and corrosion
- **Delivers** consistent clutch feel
- **Superior** extreme-weather performance
- **Wet-clutch** compatible

Premium Alternatives

Unlike OEMs who focus on making vehicles, we focus on one thing: developing premium lubricants and products that are purpose-built to protect the machines that use them. AMSOIL 0W-50 Synthetic ATV/UTV Motor Oil was developed to offer a cost-effective, high-performance alternative to Polaris lubricants of the same viscosity. All AMSOIL Synthetic ATV/UTV Motor Oils are Warranty Secure™ and will not void ATV or UTV warranties.

Applications

- Use AMSOIL 0W-50 Synthetic ATV/UTV Motor Oil in ATVs, UTVs and snowmobiles that require a 0W-50 oil, including those made by Polaris.

New ATV/UTV Kits Now Available for Can-Am* and Polaris* Applications

New AMSOIL ATV/UTV Kits are now available for the Polaris RZR Turbo 1000* and the Can-Am DS650,* Maverick,* Outlander,* Renegade,* Commander* and Defender.*

To make changing ATV/UTV oil quick and painless, AMSOIL offers convenient oil-change kits for most Polaris and Can-Am machines, with everything you need in one box. They include the correct amount of AMSOIL Synthetic ATV/UTV Motor Oil, an oil filter and any necessary O-ring and washers.

The new AMSOIL ATV/UTV Oil Change Kits are designed for the following applications:

(PK4) For Polaris RZR Turbo 1000

- 3 quarts AMSOIL 5W-50 Synthetic ATV/UTV Motor Oil (AUV50)
- Private-label WIX 51358 oil filter

(CK4) For Can-Am Rotax 900 ACE (Maverick X3, DS650)

- 4 quarts AMSOIL 5W-40 Synthetic ATV/UTV Motor Oil (AUV54)
- 420956123 oil filter
- O-ring, zinc washer, copper washer

(CK5) For Can-Am Rotax V-Twin 500cc to 1,000cc (Outlander, Renegade, Commander, Defender, Maverick)

- 2.5 quarts AMSOIL 5W-40 Synthetic ATV/UTV Motor Oil (AUV54)
- WIX WL10090 oil filter
- O-ring, zinc washer, copper washer

(CK6) For Can-Am Rotax 450cc (Defender, Outlander)

- 3.5 quarts AMSOIL 5W-40 Synthetic ATV/UTV Motor Oil (AUV54)
- WIX WL10090 oil filter
- O-ring, zinc washer, copper washer

To find the correct ATV/UTV Oil Change Kit for your machine, consult the Product Guides at AMSOIL.com/AMSOIL.ca.

The Path Less Traveled

The rise in the popularity of overlanding and how to get into it

Few things are as adventurous as overlanding, so it's no wonder the activity has grown rapidly in North America over the past few years. Overlanding takes off-road exploration and camping to new levels as adventurers travel through remote wilderness routes that make completing the journey the primary purpose of the trip.

Typically, overland travelers use off-road-capable vehicles with camping capability. The most hardcore trips can last for months or even years and span international boundaries. It can be an incredibly difficult, yet rewarding, experience as self-reliance and problem-solving figure heavily into the success of every trip.

The origins of overlanding date back to the early 1900s when Australia began to establish routes for long-distance travel. Drivers used these trade routes to transport livestock to market on foot. But in the mid-1940s, overlanding began to take on a different meaning and became an activity. This type of travel has been popular for decades in parts of Europe, Africa and Asia. But North America offers incredible overlanding opportunities based on the prevalence of national parks and open spaces, and the idea has taken off.

Unlike an off-road camping trip at a place like Grand Canyon National Park in Arizona or Moab, Utah, overlanding usually involves long-distance travel to places where less exploration occurs and self-reliance is essential. Overlanding can involve a variety of elements such as rock crawling, river crossings, mud runs and desert trails. Some diehard overlanders insist that the real deal requires taking yourself off-grid and venturing into the truly unknown, and doing so for days, weeks, months and even years at a time.

One thing is definitely true: self-reliance is central to overlanding. Those who embark on a remote journey must be prepared to handle any issues that arise, including obstacles, harsh weather and vehicle repairs. So, why would anyone choose to do that for their vacation? Overlanding offers adventure, new sights, solitude, perspective and understanding of the natural world. Vehicle-based exploration also helps build mental toughness, problem solving, survival skills and resilience.

Overlanding vehicles

The perfect overlanding rig depends on the route and the person. Many overlanders will tell you the perfect vehicle is the one parked in your driveway. SUVs, trucks, crossovers, vans and motorcycles are all effectively used. Depending on budget, you might purchase a high-mileage Subaru* station wagon off Craigslist, a Chevy* Colorado* with an off-road camper setup or a diesel 4x4 Mercedes* Sprinter* converted into a camper van. A few of the most popular overlanding models include the Toyota* Land Cruiser,* several Jeep* models, Land Rover* Defender,* Ford* Transit* and any variety of 4x4 trucks. Here are some broad considerations overlanders use for choosing an ideal vehicle:

Capability – A more capable vehicle allows you to explore more rugged routes. However, you can explore thousands of miles of U.S. Forest Service roads, Bureau of Land Management (BLM) lands and gravel backroads without a lifted Rubicon* and a snorkel.

Reliability – Make sure your vehicle is in good mechanical shape before you venture.

Parts availability – If you're overlanding in North America, you're much more likely to find any needed parts for a Ford than a Mercedes.

Size – Depending on the route, larger vehicles can be difficult to fit through narrow rock formations or tree-lined trails.

Fuel economy – The more fuel you burn, the more fuel you must carry.

Gear storage and sleeping – Keeping dust and water off your gear is a huge bonus. So is a warm, dry and safe place to sleep. Security can be a concern on some routes. But there are many approaches and all of them are valid depending on your route and personal tastes.

Vehicle maintenance

As much as possible, be proactive with vehicle checks and maintenance. Before you go, inspect the following:

- Inspect under your vehicle for drips, brackets and rubber components, including CV boots.
- Check hoses for stiffness, cracks, fatigue and missing clamps.
- Check that battery terminals are tight and free of corrosion.
- Check all lug nuts and ball joints.
- Check all systems, including lights, pumps, heater systems, air lockers and winch.

Pack your rig

Once your vehicle is checked out, you're ready to get it equipped for camping and traveling. What you take with depends on the location, time of year, terrain and duration of the trip.

Basic packing list:

- Navigation system backed up with paper maps and a compass.
- Water and water filter – bring at least two gallons per person per day.
- Food, stove and kitchen supplies.
- Sleeping gear and camping supplies.
- Refrigerator – they are lighter and last longer than coolers.
- Full-size spare.
- Toiletry items.
- Tow strap and other extraction equipment.
- First-aid kit.
- Fire extinguisher.
- Tools – socket sets, crescent wrench, channel locks, pliers, screwdrivers, hydraulic jack, crowbar, hammer and a roll of duct tape.
- Tire-repair kit and air compressor.
- Gasoline – additional jerry cans of gasoline depending on your route needs.
- Spare parts – fan belts, relays, fuses, wheel bearings, fuel pump and AMSOIL products listed to the right.

AMSOIL products to use before you go:

- Start your trip with a fresh oil change and oil filter.
- Replace your air filter.
- Check transmission fluid, differential fluids, coolant, brake fluid and power-steering fluid.
- Grease your chassis and suspension.
- Use a fuel additive appropriate for the climate and conditions.
- Use Mudslinger® to keep dust, snow, mud and UV rays at bay.

AMSOIL products to take with:

- Extra bottle or two of motor oil in case you spring a leak.
- Oil filter – particularly important if you have a precariously placed canister oil filter that may be damaged in rough terrain.
- Gear oil – in case of water contamination during water crossings, a leak in an axle seal or if a repair is needed.

- Coolant – depending on location, water may either not be available or suitable for lost coolant.
- Grease – if the terrain is particularly rough, you may find yourself needing more grease.
- Glass Cleaner – keep your view open.
- Metal Protector – to free stuck nuts and bolts.
- Fuel additives – to maintain optimum performance.

MUSCLE CAR MANIA: Legends of the Ford*

Classic Ford Muscle-Car Engines and the Products to Protect Them

The muscle car is an American innovation as original and rebellious as rock and roll, and few things in this world are as satisfying as their unbridled power. The “there’s-no-replacement-for-displacement” era didn’t produce cars that excelled at hugging corners, braking fast or conserving fuel, but they satisfied the seemingly insatiable itch for power and speed – designed to outrun their rivals on wide, straight American roads. The beating heart of classic muscle cars were their large-bore V8 engines that were crammed into mid-sized two-door sedans. In this edition of “Muscle Car Mania,” we look under the hoods of a select few legendary Ford muscle-car engines.

Ford Flathead*

The Ford Flathead is what hot rodding was built on, laying the foundation for the performance-parts aftermarket we know today. When it arrived in 1932, it was the first mass-produced V8 on the market, measuring 221 cubic inches and producing only 65 horsepower. But its cast block was far more affordable than the boutique V8s other brands were producing, and a high-performance aftermarket sprang up to support it, including carbs, intakes, camshafts, headers and cylinder heads. Servicemen returning from WWII sought out the Flathead as they joined the burgeoning

scene out of California. It wasn’t long before roadsters and land-speed racers were stuffing the design into their custom projects. By the third iteration (1949-1953), the engine had grown to 255 cubes and could produce 125 horsepower.

289 Small Block

From the high-performance K-code down to the 200-hp two-barrel versions, the 289 small block helped make the Mustang* famous. The 289 was available in 1968 and the pony car’s massive popularity gave the small-inch Windsor* an outsized purpose. The K-code Hi-Po* was available from 1963-1967. It featured beefier block hardware, a reciprocating assembly and a solid lifter valvetrain. Without a doubt, Carroll Shelby helped place this small block in the spotlight, where it powered Cobras,* G.T. 350s* and Trans-Am* racers to a variety of championships.

427 FE Medium Riser

The Ford 427 was bred for NASCAR,* became an instant drag-race success and powered Ford muscle cars of the mid-60s. It was a bored-out version of the 390 cubic inch FE V8 with a forged crankshaft, solid lifters and high-nickel-iron-alloy block. The first 427s were low risers; then the high risers appeared in 1964 in Thunderbolt* Fairlanes*

and lightweight Galaxies.* “High-riser” intake manifolds were raised to allow the air-intake charge a straight path to the valves. The medium riser was introduced in 1965 to provide a lower profile that would fit under stock hoods like Galaxies, Fairlanes and Comets* and they retained much of the flow of the high risers, in part by using the same 2.195/1.733 valve package. The 427s were also equipped with a side-oiling system designed to fight against the g-forces of track racing and keep the 427 well-lubricated. Featuring a range of high-rise and mid-rise heads, and even an advanced single overhead cam version dubbed the “cammer,” racecar 427s could produce between 500 and 2,500 hp. That output helps explain the engine’s performance at Le Mans, where it propelled the famed GT40* to victory in 1966.

428 Cobra Jet*

When the 428 Cobra Jet debuted in 1968 it immediately turned heads. The 428 Cobra was a muscle car engine for the masses. Built from passenger-car components, it was affordable and boasted undeniable kick. It’s no wonder half of 1970 Mustangs used the engine. Cobra Jet-powered cars also established themselves as scrappy competitors in Stock and Super Stock drag racing – and maintained that status for over 40 years.

Boss 429*

When Ford sought to compete with the Chrysler* 426 Hemi* in the NASCAR Grand National Division, known today as the NASCAR Cup Series, it developed the Mustang Boss 429. Ford went on to dominate the season with 429-powered Torinos* and Cyclones,* claiming 30 victories out of 54 races. The engine featured aluminum cylinder heads with a semi-hemispherical combustion chamber dubbed the “crescent.” The Boss 429 engine came standard with a single Holley* 4-barrel carburetor rated at 735 cfm, mounted on an aluminum intake manifold. Rated at 375 horsepower, the Boss 429 held the highest factory horsepower rating for a Mustang until the 2000 Cobra R arrived with its 385-hp 5.4L four-valve. The engine was also practically invincible, consisting of a four-bolt main bearing block and extremely tough reciprocating assembly.

Boss 302

The 1969–70 Boss 302 engine was developed for the 1969 Trans-Am race series. The engine married Cleveland* heads to a completely different block found in the 427. It featured four-bolt main bearings, screw-in freeze plugs, higher nickel content and cylinder heads using a canted-valve design. The original version was used in the 1969 and 1970 Boss 302 Mustangs and Cougar Eliminators.* The wide and large port heads with staggered valve placement gave the 302 high-power capabilities of 290 hp with 290 lb. ft. of torque. The engine wasn't necessarily a killer street brawler, but on the track it could do 8,000 rpm all day. The Boss 302 Mustang turned into one of the most successful Ford muscle cars of all time—with some 8,600 total Mustang units built.

Boss 351

The Boss 351 had just one year of production and no factory-supported

race effort; yet it stands as perhaps the best small-block V8 performer of all time. It featured a four-bolt block, four-barrel Cleveland heads and 11:1 compression. Boss 351 Mustangs might be the fastest classic Mustangs, with car-critic tests of the day measuring high 13-second ¼-mile runs.

Protect Your Legend

If you're lucky enough to have your foot on the accelerator of a legendary Ford V8, protection is a priority. Here's a list of AMSOIL products to help keep your classic muscle car ripping far into the future.

AMSOIL Break-In Oil

Freshly rebuilt engines should start off with AMSOIL Break-In Oil. It's formulated with zinc and phosphorus anti-wear additives to protect critical components during the break-in period when engine wear rates are highest. It doesn't contain friction modifiers to allow for quick and efficient piston-ring seating, an important aspect of the break-in process to ensure maximum power and engine longevity.

AMSOIL Z-ROD® Synthetic Motor Oil

AMSOIL Z-ROD® is engineered specifically for classic and high-performance vehicles to perform on the street and protect during storage. It features a high-zinc formulation that protects flat-tappet camshafts and critical engine components, along with a proprietary blend of rust and corrosion inhibitors for added protection during long-term storage. It's available in 10W-30, 10W-40 and 20W-50 viscosities.

AMSOIL Assembly Lube

As they say, a great engine isn't built in a day. Partially assembled engines can sit idle for weeks or months at a time. During this process, an engine-assembly lube must be applied that will cling to parts and provide wear protection, inhibit rust and help

prevent deposit formation. AMSOIL Engine Assembly Lube handles all of the above.

AMSOIL Miracle Wash® Waterless Wash and Wax

AMSOIL Miracle Wash is a must-have for owners dedicated to keeping their vehicle's appearance on par with its performance. Simply spray and wipe off to lift dirt away from the surface instantly. It leaves vehicles with a super-shiny finish that protects against dust, light dirt and harmful ultraviolet rays.

AMSOIL Gasoline Stabilizer

When it's time to put her away at the end of the season, AMSOIL Gasoline Stabilizer is crucial to ensuring your ride is road-ready in spring. Gasoline can degrade in as few as 30 days. Treat your fuel tank prior to parking the vehicle for the winter to help prevent fuel degradation and poor engine performance when it's time to fire it back up.

AMSOIL DOMINATOR® Octane Boost

Early V8 models were designed to use leaded gasoline. As a result, classic and collector autos often require the use of a lead substitute to preserve the components that were designed for the fuel of days gone by. AMSOIL DOMINATOR Octane Boost is excellent as a lead substitute in older vehicles. It increases octane up to four points, helping reduce engine knock and improving ignition while helping fuel burn more cleanly.

AMSOIL Engine Fogging Oil

Any engine facing storage or lengthy inactivity should be treated with a good dose of AMSOIL Engine Fogging Oil first. Giving the cylinders a shot of oil protects them from rust, corrosion and harmful dry starts when it comes time to fire up your hot rod or classic car the following season.

Signature Series Keeps Pistons Cleaner

Even after doubling the length of the industry-standard test, AMSOIL delivered **40% cleaner pistons** than required by the standard.^{FF}

^{FF}Based on independent testing of AMSOIL Signature Series 5W-30 in the Sequence IIIH Engine Test (ASTM D8111), required by the ILSAC GF-6 and API SP specifications.

Signature Series Delivers Powerful Protection

AMSOIL delivers powerful protection. How good is it? An independent lab compared AMSOIL synthetic motor oil head-to-head against a leading competitor in a 100,000-mile (160,934-km) test^F. AMSOIL provided far superior wear protection and kept bearings looking like new.

^FTesting conducted in an independent lab using AMSOIL Signature Series 5W-30 Synthetic Motor Oil and a leading synthetic-blend 5W-30 motor oil in Ford F-150 trucks with 3.5L twin-turbo engines.

Signature Series

Signature Series Synthetic Motor Oil

Engineered for enthusiasts seeking maximum protection and performance. Precision-formulated with cutting-edge technology and a longstanding devotion to making the world's best motor oil. The result: engine protection that blows the doors off the highest industry standards. Guaranteed protection for up to 25,000 miles (40,200 km) or 1 year, whichever comes first.

Signature Series Fights Wear

AMSOIL Signature Series Synthetic Motor Oil provides **75 percent more engine protection against horsepower loss and wear** than required by a leading industry standard^A, extending the life of vital components like pistons and cams.

^ABased on independent testing of AMSOIL Signature Series 0W-20 using the ASTM D6891 standard test.

Signature Series Guards Turbos

Signature Series protects turbochargers **72% better** than required^C by the GM dexos1[®] Gen 2 specification.

^CBased on independent testing of AMSOIL Signature Series 5W-30 in the GM turbo coking test.

Signature Series Protects Against LSPI

AMSOIL synthetic motor oils achieved **100% protection against LSPI**.^B

^BBased on zero LSPI events in five consecutive tests of AMSOIL Signature Series, XL and OE 5W-30 Motor Oil in the LSPI engine test required by the GM dexos1 Gen 2 specification.

Signature Series Cleans

AMSOIL Signature Series Synthetic Motor Oil has **50% more detergents**^D to help keep oil passages clean and promote oil circulation. It provides **90% better protection against sludge**.^{DD}

^Dvs. AMSOIL OE Motor Oil

^{DD}Based on independent testing of AMSOIL Signature Series 5W-30 in the ASTM D6593 engine test for oil screen plugging as required by the API SN PLUS specification.

Signature Series Helps Keep Engines Cleaner

AMSOIL Signature Series is fortified with a heavy treatment of detergent additives, delivering **28 percent more acid-neutralizing power than Mobil 1*** and helping engines stay cleaner, longer.^{LL}

^{LL}Based upon independent testing of Mobil 1 Annual Protection Full Synthetic 5W-30 and AMSOIL Signature Series 5W-30 in ASTM D2896. Oils purchased July 2020. All trademarked names and images are the property of their respective owners and may be registered marks in some countries. No affiliation or endorsement claim, express or implied, is made by their use.

Signature Series Resists Viscosity Increase

AMSOIL is barely challenged by the industry-standard testing, demonstrating only a 0.1% viscosity increase. Even when the test length is doubled, AMSOIL **delivered twice the viscosity control** required by the standard.^{GG}

^{GG}Based on independent testing of AMSOIL Signature Series 5W-30 in the Sequence IIIH Engine Test (ASTM D8111), required by the ILSAC GF-6 and API SP specifications.

TO ORDER: 1-800-777-7094 MONDAY – FRIDAY 7 A.M. – 7 P.M. • AMSOIL.COM

Free shipping on all orders of \$100 (\$130 CAN.) or more.

Orders below \$100 (\$130 Can.) pay a flat shipping rate of \$9.99 (\$12.99 Can.).

XL Resists Oil Breakdown

XL provides **64% more protection** against oil breakdown^F than required by the GM dexos1[®] Gen 2 specification.

^FBased on independent testing of AMSOIL XL 5W-30 motor oil in the GMOD engine test required for the GM dexos1 Gen2 specification.

OE Protects Against Wear

OE provides **47 percent more wear protection**.^G

^GBased on independent testing of OE 0W-20 in the Peugeot TU3M Wear Test as required by the dexos1 Gen 2 specification.

XL Synthetic Motor Oil

For enthusiasts who want to do something extra for their vehicle. Engineered for advanced automotive technology, including turbos and direct injection. Boosted formulation delivers more cleaning power and promotes longer engine life. Extra protection that lasts up to 12,000 miles (19,300 km) or 1 year, whichever comes first.

Synthetic Classic/Collector Car Motor Oil

AMSOIL Delivers Superior Rust Protection

In industry-standard testing, AMSOIL Z-ROD® completely prevented rust formation while a leading competitor did not.¹¹

¹¹Based upon in-house testing of AMSOIL Z-ROD 10W-40 and a leading competitor obtained on 7/25/2019 in ASTM D1748-10.

Z-ROD® Synthetic Motor Oil

High-zinc, high-phosphorus formulation engineered specifically for classic cars and performance vehicles.

Synthetic Racing Oil

“AMSOIL products are the best on the market and definitely give us an added performance factor.”

— **Bryce Menzies**
Professional Off-Road Driver

DOMINATOR® Synthetic Racing Oil

Superior performance and maximum protection in high-performance and racing applications.

DOMINATOR® Protects Better

DOMINATOR Competition Diesel Oil delivers **50% more** film thickness⁹ to withstand high cylinder pressures and protect against wear.

⁹Compared to the 3.5 cP HTHS limit for SAE 15W-40.

^{17,18}See page 47 for Proposition 65 information for this product.

Synthetic Diesel Oil

Keeps Turbos Clean

Signature Series Max-Duty Synthetic Diesel Oil provides protection boosted to the max, delivering up to **60% better turbo cleanliness¹** and withstanding the extra demands you place on the turbo when pulling heavy loads or updating the tune for maximum horsepower.

¹Based on specification standards of CAT C13 2nd Ring Top Land Carbon testing.

AMSOIL Fights Wear

AMSOIL delivers **powerful engine protection**. How good is it? In independent testing compared to a leading brand, AMSOIL Signature Series Diesel Oil provided long-lasting wear protection, **keeping cylinder liners looking like new.^{DD}**

^{DD}Based on independent testing of AMSOIL 5W-30 Signature Series Max-Duty Synthetic Diesel Oil and a leading conventional 15W-40 diesel oil using the Detroit Diesel[®] DD13 Scuffing test for specification DFS 93K222.

Protects Against Rust

Signature Series Max-Duty Synthetic Diesel Oil provides up to **2X better rust protection.^K**

^KBased on industry standard testing using the NMMA FC-W Rust Test.

Reduces Oil Consumption

Heavy-Duty Synthetic Diesel Oil provides up to **66% less** oil consumption, while Signature Series Max-Duty Synthetic Diesel Oil provides up to **76% less** oil consumption.^L

^LThan required by the API CK-4 standard in the Caterpillar-1N oil consumption test.

DHD

Signature Series Max-Duty Synthetic Diesel Oil

The top tier of AMSOIL protection and performance for diesel engines. **Provides 6X more engine protection.¹**

“Changed out the transmission fluid in my GMC* 2500 with the AMSOIL OE. The difference is noticeable with how smooth the truck shifts. Great product.”

— Jimmy
Upstate NY

○ Synthetic CVT Fluid

Provides outstanding protection and performance for continuously variable transmissions (CVT) throughout original equipment manufacturer (OEM)-recommended drain intervals.

Use in belt- and chain-type CVTs that require BMW EZL 799A (8322 0 136 376 /8322 0 429 154) • Daihatsu Amix CVTF-DG, CVTF-DFE • FCA Mopar CVTF +4 (Mopar CVT 4) • Ford M2C928-A (CFT 23), WSS-M2C933-A (CFT 30), Motorcraft XT-7-QCFT, MERCON C • GM DEX-CVT, GM CVT (CVT I-Green2) • Honda HMMF (08200-9006), HCF-2 • Hyundai/Kia SP-CVT 1 • Mazda CVTF 3320 • Mercedes-Benz 236.20 (001 989 46 03) • Mitsubishi CVTF-J1, CVTF-J4 • Nissan NS-1, NS-2, NS-3 • Subaru e-CVT, i-CVT F, Lineartronic CV-30, Lineartronic CVTF/CVT-II (K0425Y0710), High Torque CVTF • Suzuki CVT Fluid Green 1, CVT Fluid Green 2 (NS-2), CVTF 3320 (TC) • Toyota/Lexus TC, FE • VW/Audi TL 52180 (G 052 180), TL 52516 (G 052 516)

○ Synthetic Manual Transmission and Transaxle Gear Lube¹⁵

Provides improved internal component protection. Formulated with extreme-pressure additives and advanced frictional qualities that provide smooth shifts while protecting gears, bearings and seals. Non-corrosive to yellow metals.

Use in applications that require API GL-4 • ZF TE-ML 02B, 17A, MB 235.5 & MAN 341-Z2 (formerly MAN 341 ML) • Synchronized manual transmissions and transaxles that require 75W-85, 75W-90 or 80W-90 API GL-4 Gear Lube • NV 4500 Transmissions • GM Part #12346190 • Chrysler Part #4874459 • Chrysler Spec MS-9070 • Certain Hyundai, Hino, Infiniti, Kia, Lexus, Mazda, Mitsubishi, Nissan, Suzuki, Toyota & Volkswagen models requiring GL-4

Synthetic Gear Lube

“Whoever invented the easy-pack concept is a genius. Especially for servicing transfer cases and differentials. It lives up to its name. Not only an innovative oil, but innovative packaging as well.”

– **Joey**
Calif.

SEVERE GEAR® Synthetic Gear Lube

Specifically engineered for high-demand applications, including trailer towing, heavy hauling, 4x4 off-road driving, commercial use and racing. Flexible easy-pack helps you access tough-to-reach fill holes and eliminates the need for a pump.

● 75W-90

Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J • Dana SHAES 234 (Eaton PS-037)

Superior Cold-Temperature Protection

AMSOIL Diesel All-In-One provides as much as **32°F (18°C) better protection** against cold-temperature gelling than Howes* Lubricator Diesel Treat.^M Plus raises cetane up to 4 points.

^MBased on independent testing in July 2017 of AMSOIL Diesel All-In-One and Howes Lubricator Diesel Treat using diesel fuel representative of the U.S. marketplace and Howes' recommended treat ratio for above 0°F (-17.8°C).

Diesel Cold Flow¹⁷

Effectively modifies wax crystal formation at low temperatures to depress diesel fuel pour point and improve cold-flow filtration properties. Lowers cold filter-plugging point (CFPP) by up to 40°F (22°C) in ultra-low-sulfur diesel (ULSD).

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
ADDCN	EA	(1) 16-oz. Bottle	8.89
ADDCN	CA	(12) 16-oz. Bottles	100.75

Diesel Cetane Boost

Raises the cetane number of diesel fuel up to eight points for maximum horsepower, increased fuel economy and easier starts in all diesel engines. Diesel engines operate best on fuel with cetane values of 50 or higher. Most diesel fuel sold in North America has a cetane value of 40-45.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.

Extended Filter Life

- AMSOIL Oil Filters designated with product code EA15K are recommended for 15,000 miles (24,100 km) or one year, whichever comes first, in normal or severe service. NOTE: Change oil filter at every oil change.
- AMSOIL Oil Filters designated with product code EAO are recommended for 25,000 miles (40,200 km) or one year, whichever comes first, in normal service or 15,000 miles (24,100 km) or one year, whichever comes first, in severe service. NOTE: Change oil filter at every oil change.
- When AMSOIL Oil Filters are used with a motor oil other than AMSOIL motor oil, the filter should be changed according to the vehicle manufacturer's recommendation.

Oil Filters

AMSOIL Oil Filters rank among the highest efficiency filters available to the auto/light-truck and powersports markets, providing a filtering efficiency of 99 percent at 20 microns. Featuring advanced full-synthetic technology, AMSOIL Oil Filters provide greater efficiency, capacity and durability than cellulose filters, extending engine and filter life and reducing engine wear. Easy-grip coating eases the job of tightening and loosening filters. Call 1-800-777-7094 (Monday-Friday, 7 a.m. - 7 p.m. Central Time) or look up your vehicle at AMSOIL.com to determine the appropriate filter for each application. NOTE: Change oil filter at every oil change.

EAHD

Heavy-Duty Extended-Life Oil Filters

Provide excellent 99 percent filtering efficiency at 20 microns and high contaminant capacity for heavy-duty on- and off-road diesel and gasoline applications. Provide extended service intervals that coincide with the maximum drain intervals of AMSOIL synthetic engine oils.

See AMSOIL.com or call (715) 399-8324 (TECH) (Monday-Friday, 8 a.m. - 5 p.m. Central Time) for application information.

EABP

Bypass Filters

High-efficiency bypass filters effectively remove minute dirt particles and soot by working in conjunction with the engine's full-flow filter and capturing contaminants that full-flow filter can't remove.

See AMSOIL.com or call (715) 399-8324 (TECH) (Monday-Friday, 8 a.m. - 5 p.m. Central Time) for application information.

Grease

Synthetic Polymeric Off-Road Grease

Extreme-pressure, moly-fortified grease that provides outstanding protection for heavy-load-bearing applications, including steering knuckles, spring shackles, heavy equipment pivot joints and other components operating in high-load, low-speed conditions.

● Synthetic Polymeric Off-Road Grease³⁶

Use in applications that require NLGI No. 1, 5% Moly

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
GPOR1CR	EA	(1) 15-oz. Cartridge	10.59	13.69
GPOR1CR	CA	(10) 15-oz. Cartridges	104.50	135.60

● Synthetic Polymeric Off-Road Grease³⁶

Use in applications that require NLGI No. 2, 5% Moly

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.

DOMINATOR® Synthetic Racing Grease²¹

High-performance bearing and chassis lubrication for all race applications on snow, dirt, water and track. Designed for bearings that operate under high-speed, high-heat and low-temperature conditions.

Use in applications that require NLGI No. 2, GC/LB

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
GRGCR	EA	(1) 14-oz. Cartridge	13.79	17.39
GRGCR	CA	(10) 14-oz. Cartridges	134.60	169.35

Synthetic Multi-Purpose Grease

Delivers premium wear protection for bearings, bushings, chassis lubrication and other applications.

Use in applications that require NLGI No. 2 • GC/LB

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
GLCCR	EA	(1) 14-oz. Cartridge	8.69	11.49
GLCCR	CA	(10) 14-oz. Cartridges	84.05	111.35

Synthetic Water-Resistant Grease

Provides outstanding water-washout and spray-off resistance for applications frequently exposed to water, mud, snow or ice.

Use in applications that require NLGI No. 2 • GC/LB

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.

Synthetic Motorcycle Oil

AMSOIL Resists Viscosity Breakdown

AMSOIL V-Twin Motorcycle Oil resists viscosity breakdown **6X better** than Harley-Davidson* SYN3* for **improved protection** against compensator and transmission gear wear.^{BB}

^{BB}Based on testing of AMSOIL 20W-50 Synthetic V-Twin Motorcycle Oil purchased on 3/19/19 and Harley-Davidson Screamin' Eagle SYN3 purchased on 3/19/19 in the CEC L45-KRL, ASTM D445 test. *All trademarked names and images are the property of their respective owners and may be registered marks in some countries. No affiliation or endorsement claim, express or implied, is made by their use.

Synthetic V-Twin Motorcycle Oil

● 20W-50

Superior synthetic formulation provides long service life and maximum protection against engine wear in Harley-Davidson*, Buell* and other motorcycle engines, primaries and transmissions.

Use in bikes that require API SG, SL/CF, CG-4 • JASO MA/MA2 • ISO-L-EMA2

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
MCVQT	EA	1 Quart	12.29	16.09

Use in boat motors that require API SM • NMMA FC-W Catalyst Compatible (Registration #FC-11825T) • JASO MA

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
WCMQT	EA	1 Quart	9.59	12.99
WCMQT	CA	12 Quarts	109.10	147.50

● HP Marine® Synthetic 2-Stroke Oil¹³

Prevents piston skirt scuffing, cylinder bore scuffing and ring sticking in all two-stroke outboard motors, personal watercraft and anywhere NMMA TC-W3 and API-TC oils are specified.

Use in boat motors that require TC-W3

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
HPMQT	EA	1 Quart	10.69	13.99
HPMQT	CA	12 Quarts	120.75	158.90
HPM1G	EA	1 Gallon	41.89	53.89
HPM1G	CA	4 Gallons	158.50	204.25

● Outboard 100:1 Pre-Mix Synthetic 2-Stroke Oil¹³

Contains a heavy dose of low-temperature dispersant additives that excel at reducing varnish and carbon deposit formation in water-cooled outboard motors.

Use in boat motors that require TC-W3

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
ATOBC	EA	(1) 8-oz. Bottle	5.09
ATOBC	CA	(12) 8-oz. Bottles	57.50
ATOQT	EA	1 Quart	14.79
ATOQT	CA	12 Quarts	168.05

● Universal Synthetic Marine Gear Lube¹⁸

Resists foam and retains extreme-pressure qualities in outboard lower units, stern drives, V-drives, bow and tunnel thrusters and marine transmissions. Delivers advanced outboard protection against power loss and gear wear, even with up to 15 percent water contamination.^Y Choose the easy-pack for fast, easy installation.

Use in applications that require GL-5, GL-4

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
AGMTB	EA	(1) 10-oz. Tube	7.39	9.69
AGMTB	CA	(6) 10-oz. Tubes	41.55	54.80
AGMQT	EA	1 Quart	13.39	17.69
AGMQT	CA	12 Quarts	152.40	201.30
AGMPK	EA	1 Quart Easy-Pack	15.09	19.99
AGMPK	CA	12 Quart Easy-Packs	171.65	226.65

Marine Gear Lube Pump²⁷

Specifically designed to ease installation and reduce mess when servicing lower units. Eliminate the need for a pump, save money and reduce the mess by choosing the easy-pack.

STOCK#	U.S. P.C.	CAN. P.C.
G3456	10.10	13.40

^{13,23,18,27}See page 47 for Proposition 65 information for this product.

^YBased upon AMSOIL testing of AMSOIL Synthetic Marine Gear Lube 75W-90 in ASTM 3233 and ASTM D892.

Cleaners and Protectants

Protection and Dependability
for Generations

Chain Lube

Provides outstanding protection against wear and corrosion. Helps extend chain life. Does not attract dirt and does not fling off. Fast-drying.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
ACL4SC	EA	(1) 4.5-oz. Spray Can	6.29
ACL4SC	CA	(12) 4.5-oz. Spray Cans	71.35
ACLSC	EA	(1) 11-oz. Spray Can	11.89
ACLSC	CA	(6) 11-oz. Spray Cans	67.30

Engine Fogging Oil¹³

Helps prevent corrosion and dry starts to internal engine components found in outboard motors, lawn and garden equipment, motorcycles, snowmobiles, ATVs, motor homes and generators during storage or long periods of inactivity.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
FOGSC	EA	(1) 12-oz. Aerosol Can	9.69
FOGSC	CA	(6) 12-oz. Aerosol Cans	54.85

Power Foam®

Improves starting and performance by cleaning dirty intake systems and spark plugs; freeing sticky valves and removing gum, varnish and carbon deposits.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
APFSC	EA	(1) 18-oz. Spray Can	9.79
APFSC	CA	(12) 18-oz. Spray Cans	111.45

Heavy-Duty Degreaser

Formulated with powerful and fast-acting solvents, attacking petroleum-based grime on a molecular level to loosen its hold on metal, concrete and other surfaces.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
ADGSC	EA	(1) 15-oz. Spray Can	12.69
ADGSC	CA	(12) 15-oz. Spray Cans	144.35

Silicone Spray²⁶

Perfect for lubricating or protecting rubber, nylon, plastics, upholstery, vinyl, wood, cardboard or fiberglass. Also excellent for waterproofing leather products. Hundreds of household uses.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
ALSSP	EA	(1) 10-oz. Spray Can	9.19
ALSSP	CA	(12) 10-oz. Spray Cans	104.00

^{13,26}See page 47 for Proposition 65 information for this product.

Mudslinger®

Provides a protective layer of armor against the accumulation of mud, dirt and snow on ATVs, UTVs and dirt bikes, easing clean-up. Restores color and luster.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
AMSSC	EA	(1) 12-oz. Spray Can	9.89
AMSSC	CA	(12) 12-oz. Spray Cans	111.50

Engine Degreaser

Effectively cleans engine surfaces by cutting through grease, oil and grime.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
AEDSC	EA	(1) 15-oz. Spray Can	8.19
AEDSC	CA	(12) 15-oz. Spray Cans	92.75

Glass Cleaner

Cuts through grease and grime faster than other leading glass cleaners, stays where you spray it and leaves no streaks.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
AGCSC	EA	(1) 19-oz. Spray Can	4.69
AGCSC	CA	(12) 19-oz. Spray Cans	52.40

Metal Protector¹³

Displaces water, lubricates, penetrates and protects metal surfaces from corrosion, including hinges, squeaky mechanical objects, electrical systems and more.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
AMP4SC	EA	(1) 4-oz. Spray Can	6.29	—
AMP4SC	CA	(12) 4-oz. Spray Cans	71.15	—
AMPSC	EA	(1) 8.75-oz. Spray Can	8.19	8.49
AMPSC	CA	(12) 8.75-oz. Spray Cans	92.75	95.60

Heavy-Duty Metal Protector¹³

Penetrates and adheres to metal surfaces, leaving a long-lasting coating that protects against the damaging effects of salt, moisture or chemical corrosion.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
AMHSC	EA	(1) 15-oz. Spray Can	11.69
AMHSC	CA	(12) 15-oz. Spray Cans	132.65

¹³See page 47 for Proposition 65 information for this product.

Engine and Transmission Flush

Helps restore operating efficiency, increase fuel economy and reduce emissions in gasoline and diesel engines and automatic transmissions.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
FLSHCN	EA	(1) 16-oz. Bottle	11.29	14.69
FLSHCN	CA	(12) 16-oz. Bottles	128.05	167.15

Miracle Wash® Waterless Wash & Wax

Unique dry car wash and polish delivers outstanding performance and quick, easy and economical spray application. No water required.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
AMWSC	EA	(1) 13-oz. Spray Can	10.29
AMWSC	CA	(12) 13-oz. Spray Cans	116.20

Synthetic Firearm Lubricant and Protectant

Effectively lubricates and protects firearms, helping extend life and prevent blockage, jams and wear. Outstanding protection and performance in both hot and cold climates. Specifically formulated for firearms, offering superior performance over multi-purpose products.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
FLPBA	EA	(1) 4-oz. Bottle	8.99	12.09
FLPBA	CA	(12) 4-oz. Bottles	101.75	137.40
FLPSC	EA	(1) 5-oz. Spray Can	11.09	—
FLPSC	CA	(12) 5-oz. Spray Cans	125.55	—

Firearm Cleaner and Protectant

Penetrates deep into hard-to-reach components, effectively cleaning fouling and powder residue from all firearm surfaces, safely protecting them for storage, reducing jamming and increasing reliability. Protects against corrosion, allowing for safe storage and preserving performance, reliability and value.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
FCPSC	EA	(1) 5-oz. Spray Can	7.59
FCPSC	CA	(12) 5-oz. Spray Cans	86.35
FCPCN	EA	(1) 8-oz. Bottle	10.19
FCPCN	CA	(12) 8-oz. Bottles	114.95

● Heavy-Duty Antifreeze & Coolant²⁹

Provides superior heat transfer and excellent protection against corrosion, cylinder-liner cavitation, freezing and boilover. Protection up to 1,000,000 miles, 20,000 hours or 8 years, whichever comes first. Pre-mixed formula.

Use in applications requiring any of the following specifications:
 ASTM D3306, D6210, D7583, D7820 • TMC RP329B, TMC RP338 • AS/NZS 2108.2004 Type A
 Suitable for use with the following: Case New Holland • Cummins 14603 • Cummins 3666132 • DDC 7SE 298, 93K217 • Freightliner 48-22880 • GM Heavy Truck • International Truck and Engine / Navistar CEMS B-1 Type III-A • JIS K2234 • MAN 324 NF • MB DBL 7700 • MTU MTL 5048 • Kenworth R026-170-97 • Mack 0146GS17004, 0146GS17009 • PACCAR CS0185 • DAF MAT 74002 • Peterbilt 8502.002 • Scania TB1451 • Volvo Heavy Truck

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
ANTHD1G	EA	1 Gallon	20.59	26.79
ANTHD1G	CA	4 Gallons	77.90	101.50

○ Propylene Glycol Antifreeze & Coolant

Combines the benefits of biodegradability, low toxicity and all-climate protection for up to 150,000 miles (241,400 km) or 5 years, whichever comes first, in passenger cars and light trucks. Protection up to 1,000,000 miles (1,609,344 km), 20,000 hours or 8 years, whichever comes first, in heavy-duty applications. Concentrated formula.

Use in applications requiring any of the following specifications:
 ASTM D3306, D6210, D7583, D7820 • TMC RP329B, TMC RP338 • AS/NZS 2108.2004 Type A
 Suitable for use with the following: Case New Holland • Cummins 14603 • Cummins 3666132 • DDC 7SE 298, 93K217 • Freightliner 48-22880 • GM Heavy Truck • International Truck and Engine / Navistar CEMS B-1 Type III-A • JIS K2234 • MAN 324 NF • MB DBL 7700 • MTU MTL 5048 • Kenworth R026-170-97 • Mack 0146GS17004, 0146GS17009 • PACCAR CS0185 • DAF MAT 74002 • Peterbilt 8502.002 • Scania TB1451 • Volvo Heavy Truck

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
ANT1G	EA	1 Gallon	44.99	59.09
ANT1G	CA	4 Gallons	170.50	223.90

● Passenger Car/Light Truck Antifreeze & Coolant²⁹

Engineered to exceed original equipment manufacturer (OEM) requirements for up to 150,000 miles or 5 years, whichever comes first, in passenger cars and light trucks. Pre-mixed formula.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
ANTPC1G	EA	1 Gallon	19.29	25.09
ANTPC1G	CA	4 Gallons	73.05	94.95

Fluid Extraction Pump

STOCK#	U.S. P.C.	CAN. P.C.
G2576	15.75	21.00

Aids in the removal of old fluids when servicing vehicles.

²⁹ See page 47 for Proposition 65 information for this product.

● Powersports Antifreeze & Coolant¹⁵

Advanced design helps control operating temperature in hot-running, high-revving powersports applications. Extended-life formula provides all-season protection for up to five years.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
PSAFQT	EA	1 Quart	7.59	10.19
PSAFQT	CA	12 Quarts	85.50	115.25

DOMINATOR® Coolant Boost

Helps reduce engine temperatures, increase horsepower, promote faster engine warm-up times and reduce radiator and engine corrosion in racing and passenger vehicles.

Warm up your car 54% faster. See the Coolant Boost product page at AMSOIL.com for details.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
RDCBCN	EA	(1) 16-oz. Bottle	11.49	15.49
RDCBCN	CA	(6) 16-oz. Bottles	65.00	87.70

○ Synthetic Air Tool Oil¹³

Effectively lubricates rotary and piston-type air-tool bearings and motors, while managing moisture and conditioning rubber and plastic seals and O-rings.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
AIRBA	EA	(1) 4-oz. Bottle	3.99	5.49
AIRBA	CA	(12) 4-oz. Bottles	45.45	62.05

Multi-Vehicle Synthetic Power Steering Fluid¹³

Provides excellent wear protection, long component life and quiet operation in most passenger cars and light trucks.

Use in applications that require American Motor Corporation C 4124; 4634 • BMW 82 11 0 148 132; 83 29 0 429 576; 81 22 1 468 879 & 82 11 1 468 041 • Chrysler MS-1872; MS-5931; MS-9602 & MS-11655 • Ford M2C138-CJ; ESW-M2C128-C&D; M2C195-A; M2C204-A & M2C33-F • GM/Saginaw PSF 9985010; 9985835; 89021184 & 1050017 • Hyundai/Kia PSF-3; PSF-4 & PSF 00232-19017 • Mercedes Benz 236.3; 345.0; 001 989 24 03 10; 001 989 24 03 12 & Q 1 32 0001 • Mitsubishi Diamond SP III & PS Fluid • Navistar TMS 6810 • Nissan PSF-II • Porsche 000 043 206 56 • Saab 93160548; (45) 30 09 800 & 30 32 380 • Subaru K0209A0080 • Toyota PSF Type EH; P/N 006886-01 • Volvo 1161529 & 30741424 • VW/Audi TL-52146; G002000; G 004 000 M2; G 004 000 M7 & G 004 000 M8

PSFCN	EA	(1) 16-oz. Bottle	8.39	10.79
PSFCN	CA	(12) 16-oz. Bottles	94.70	122.20

DOT 3 & 4 Synthetic Brake Fluid³³

High-performance brake fluid specially designed as a multi-use product for passenger-car, light-truck and powersports applications.

Use in equipment requiring a DOT 3, 4 or 5.1 brake fluid.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
BFLVCN	EA	(1) 12-oz. Bottle	6.69
BFLVCN	CA	(12) 12-oz. Bottles	75.95

DOMINATOR® DOT 4 Synthetic Racing Brake Fluid¹⁰

High boiling point brake fluid engineered to resist brake fade and vapor lock during intense racing applications.

Use in racing equipment requiring a DOT 4 brake fluid.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
BFRCN	EA	(1) 12-oz. Bottle	12.49
BFRCN	CA	(12) 12-oz. Bottles	141.25

Brake & Parts Cleaner³²

Professional-strength parts cleaner that quickly removes oil, grease, brake fluid and other contaminants from brake parts and other automotive components.

STOCK#	UNITS	PKG./SIZE	U.S. P.C.
BPCSC	EA	(1) 19-oz. Spray Can	6.09
BPCSC	CA	(12) 19-oz. Spray Cans	68.35

Synthetic Compressor Oil

Superior protection for rotary screw, rotary vane, reciprocating and other compressor applications.

● Synthetic Compressor Oil¹³

Use in compressors that require ISO 46 • SAE 20

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
PCIQT	EA	1 Quart	13.99	17.69
PCIQT	CA	12 Quarts	158.25	200.70

● Synthetic Compressor Oil

Use in compressors that require ISO 100 • SAE 30/40

STOCK#	UNITS	PKG./SIZE	U.S. P.C.	CAN. P.C.
PCKQT	EA	1 Quart	14.29	18.09
PCKQT	CA	12 Quarts	161.95	205.75
